

Moisture lock night super-serum

arxada

Formula highlights

- Soft & delicate night super serum is easily absorbed for luxurious skin feel and instant hydration. Balances, smooths and softens overnight. This serum has a lightweight and delicate, low tack and luxurious texture for superior mildness & moisturization on the skin with a low level of oil, and improved absorption on the skin.

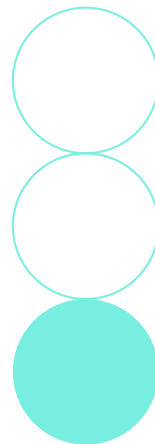

Featured ingredients:

- **Geomulse™ S10 & P11** work in synergy to provide luxurious texture and superior mildness & moisturization on skin. Skin feel is light and delicate, and the formula is more consistent with an easily spreadable face lotion or serum. Builds viscosity without the need for additional thickeners.
- **Laracare® A200** is extracted from the larch tree. It is a highly effective, natural enhancer for skin care actives that is natural, mild, non-irritating and water dispersible. It facilitates uniform aqueous dispersion of pigments and particulate materials and reduces transepidermal water loss, providing long-lasting moisturization.
- **Geogard® Ultra** is a green preservative that contributes an added skin moisturization benefit and has conformance with COSMOS, NATRUE and the Soil Association.

SilkEssence roll on AP

Formula highlights

- Moisturizing, low-tack formulation and quicker drying than a market leading anti-perspirant. Leaves no white marks. The kind-to-skin formula provides effective underarm protection, keeping sweat and odor at bay for up to 48 hours.

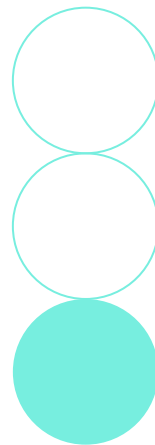

Featured ingredients:

- **Geomulse™ P11** provides excellent product stability, mildness and skin moisturization. It also provides the texture to the formula without the need for additional thickeners. Compared to traditional emulsion systems, Geomulse™ creates formulations that dry more quickly, with no undesirable greasy residues. Builds viscosity without the need for additional thickeners.
- **Geogard® Ultra** is a green preservative that contributes an added skin moisturisation benefit and has conformance with COSMOS, NATRUE and the Soil Association.

TLC hand cream

Formula highlights

- A fast absorbing intensely hydrating Hand Cream that works on all skin types. Non-sticky formula that spreads easily to nourish and repair sensitive skin & strengthen nails. Hands are left feeling soft, supple and well cared for.

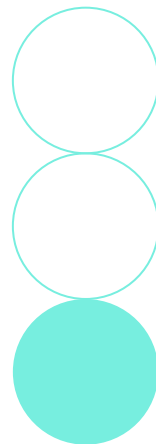

Featured ingredients:

- **Geomulse™ S10 & Geomulse™ P11** work in synergy to provide a more rigid formula with gel-like structure, that spreads easily with a non-tacky feel suitable for a hand cream. Builds viscosity without the need for additional thickeners.
- **Geogard® Boost PGC** is a naturally derived multifunctional and preservative potentiator. It is a liquid ingredient that can be used in a wide variety of leave-on and rinse-off cosmetic and personal care products.
- **LaraCare® A200** is extracted from the larch tree. It is a highly effective, natural enhancer for skin care actives that is natural, mild, non-irritating and water dispersible. It facilitates uniform aqueous dispersion of pigments and particulate materials and reduces transepidermal water loss, providing long-lasting moisturization.
- **Natrulon® H-6** is a naturally derived multifunctional skin moisturizer and humectant.

Glow getter SPF day cream

arxada

Formula highlights

- Perfect your look with Glow Getter SPF Day Cream. Half skincare, half makeup, this tinted cream enhances your skin, providing instant hydration. With its light texture and buildable coverage, it perfects and evens out the complexion without any caking. It has great coverage yet looks extremely natural and doesn't feel heavy or sticky. SPF 15 with nourishing, glowy protection.

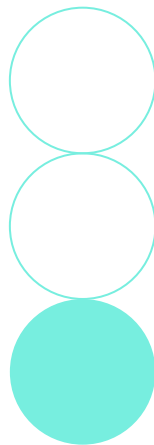

Featured ingredients:

- **Geomulse™ S8 & Geomulse™ S10** work in synergy to provide excellent aesthetics & superior mildness and moisturization on skin. Geomulse™ S10 provides moisturisation & more rigid formula with gel-like structure, that spreads well on skin. Geomulse™ S8 helps to provide structure & enhances the skin after feel.
- **Geomulse™ O3** is used to disperse / wet the pigments and SPF filters.
- **Geogard® Boost PGC** is a naturally derived multifunctional and preservative potentiator. It is a liquid ingredient that can be used in a wide variety of leave-on and rinse-off cosmetic and personal care products. In combination with **TroyCare® AP** provides broad spectrum protection.
- **LaraCare® A200** is extracted from the larch tree. It is a highly effective, natural enhancer for skin care actives that is natural, mild, non-irritating and water dispersible. It facilitates uniform aqueous dispersion of pigments and particulate materials providing SPF Boosting

Skin quench nourishing face mask

arxada

Formula highlights

- Ultra-Rich Skin Feel that will take your face from dry to dewy. Restores skin's youthful glow. Diminishes signs of fatigue, and smooths and soothes the skin. This hydrating face mask revitalises, nourishes and plumps skin. Suitable for all skin types including sensitive skin.
- Visibly reduces puffiness, refines facial contours, promotes even skin tone.

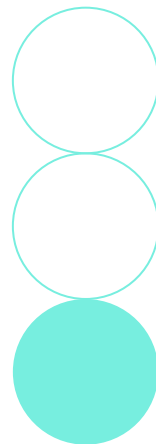

Featured ingredients:

- **Geomulse™ S8 & Geomulse™ S10** work in synergy to provide a luxurious texture and superior mildness & moisturization on skin, without the need for additional thickeners.
- **Geogard® ECT** is a water-soluble, low odour and low colour preservative that offers broad spectrum protection in a variety of personal care products. It is compliant with ECOCERT and COSMOS, and is accepted by the NPA
- **LaraCare® A200** a natural, mild and water-soluble polymer which enhances emulsion stability, reduces trans epidermal water loss (TEWL), and provides moisture control in formulations. This ingredient can improve the appearance of superficial fine lines in skin, provides film forming and skin tightening and improves the uniformity and spread ability of a formulation.
- **Natrulon® H-6** is a naturally derived multifunctional skin moisturizer and humectant.

Vitamin B3 body butter for normal to dry skin

Formula highlights

- Extra rich texture to hydrate and restore dry skin This ultra rich texture body cream nourishes and protects dry skin. Infused with Shea Butter & Marula Oil, it locks in moisture and keeps the skin supple and nourished for longer.

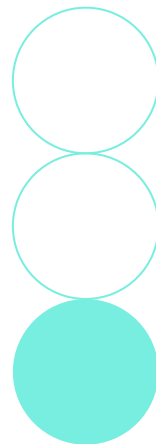

Featured ingredients:

- **Geomulse™ S8 & Geomulse™ S10** work in synergy to provide luxurious textures and superior mildness & moisturization on skin. Extra rich texture to hydrate and restore dry skin from addition of more S8 in formulation. Adds to the viscosity of the formula along with shea butter and eliminates the need for additional thickeners.
- **Geogard® LSB** is a completely organic acid-based, natural, preservative blend, providing broad spectrum protection against both bacteria and fungi at a wide pH range. It's hero ingredient, Levulinic Acid, a sustainably sourced, non-GMO material that solubilizes and boosts the efficacy of the active substances.
- **Natrulon® H-6** is a naturally derived multifunctional skin moisturizer and humectant.

Go bold or go home

Formula highlights

- Make a bold statement with this lipstick, which offers outstanding pigment payoff and a brilliant shine that will turn heads.
- The formula is designed for easy application, ensuring smooth and even coverage with every swipe. Its spreadability and smoothness make it a breeze to apply, allowing for a pop of brilliant color!

Featured ingredients:

- **Geomulse™ O3** provides superior performance for both true color and shine compared to industry benchmarks, while addressing consumer needs for naturality, mildness on skin, moisturization, and luxurious aesthetics. Additionally, Geomulse™ O3 benefits the formulator by reduction the potential of syneresis and blooming and allowing the creation of multifunctional color cosmetics to meet consumer expectations.
- **Geomulse™ S8 & S10** build flexibility into brittle waxes, delivering a softer, smoother, and more effortless application while preserving stick strength and colour pay-off. Furthermore, low inclusion levels optimise formulation space, enabling the incorporation of water-soluble actives into lipsticks.
